Experiment - 1

Aim: To design an ER Diagram for an Indian E-commerce platform containing entities, customer, product, order, order time, seller, category, Payment, Delivery and Address.

Key Components:

(i) Entity: Real world object represented by [].
(ii) Attribute: Property of an entity.
(iii) Primary key: Uniquely identify an entity.
(iv) Weak Entity: Entity that depends on another.
(v) Relationship: Association between entities.
(vi) Specialization: Dividing an entity into subclass.
